DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see REMARKS, filed 13 April 2005, with respect to the rejection of Claims 1-4, 8, 11 and 12 under 35 USC 103(a), and also with respect to the remaining rejection(s), have been fully considered and are persuasive in view of the amendment to Claim 1. The rejection(s) of claims 1-13 have been withdrawn.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Reasons for allowance of **Claim 16** have been provided in the previous Office Action, along with a discussion of TAKAYAMA, considered the closest prior art of record.

Further regarding **Claim 1**: Claim 1 is allowable because the prior art fails to teach or fairly suggest a device for measuring temperature in a metal melt comprising an optical fiber having an immersion end which is guided through a melt-consumable body, such that the consumable body and the optical fiber are destroyed, including the limitations,

wherein the consumable body exhibits a consumption rate in the melt of at most 10 cm/min and

wherein the consumption rate is approximately equal to or greater than a rate at which the fiber is destroyed, as defined in the claim, each arranged and functioning as recited in claim 1 in combination with the other limitations of the claim.

Claims 2-15 are allowable by virtue of their dependency upon claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
